

## AUSTRALIAN RISK ASSESSMENT

**PURPOSE OF DOCUMENT:** Provides guidance to persons who have duties under the Australian Workplace Health and Safety Act laws, to manage risk to health and safety.

**SAFETY DOCUMENTATION:** Detailed safety information is set out in the attached Operator's Manual, which should be read and understood in its entirety by all operators of the machine.

**INTENDED PRODUCT USE:** See Introduction and Product Overview Sections of Operator's Manual.

**TESTING:** The product has been designed and tested in consideration of all applicable industry product safety standards.

**HAZARDS:** Operator's Manual uses the following hazard warning classification:

- Danger – Used to warn for hazards that could kill or cause serious permanent injury or disability, including death, amputation of a limb, hand, or foot, paralysis, third-degree burns
- Warning – Used to warn of hazards that could cause serious injury, including amputation of fingers or toes, deep cuts and abrasions, bone fractures, concussion, second-degree burns
- Caution – Used to warn of hazards that could cause minor to moderate injury, including minor cuts and abrasions, bruising, first -degree burns
- Warnings are provided in each section of the Operator's manual. The Operator's Manual contains the following sections:
  - Introduction
  - Safety
  - Setup
  - Product Overview
  - Maintenance
  - Service
  - Storage
  - Troubleshooting
- Refer to Operator's Manual for specific hazards for the machine and the classification of the potential hazard based on the admonition used (Danger, Warning or Caution)

### GENERAL SAFETY INSTRUCTIONS:

- Allow only trained and authorized operators to operate the machine
- Ensure Operator's Manual (attached) is read and understood in its entirety by all operators of the machine
- Never service or adjust the machine during operation
- Train staff on proper trailering, if applicable
- Have staff wear proper personal protective equipment, as outlined in Safety Section of the Operator's Manual

**ON-PRODUCT PICTORIAL INFORMATION:** See Safety Section of the Operator's Manual for information on pictorial information.

**PERSONAL PROTECTIVE EQUIPMENT:** See Safety Section of the Operator's Manual.
