

RIDER 1201 SH

MAINTENANCE SCHEDULE

BEFORE USE CHECKLIST

DAILY CHECKLIST

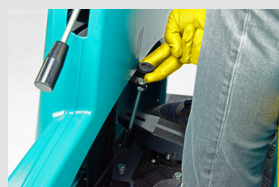

1. Check fuel level.

2. Check engine oil level and top up if necessary.

1. Take the machine to a suitable waste disposal area.

2. Activate the handbrake.

3. With the engine running and throttle at the minimum...

...push the button to clean the filter.

4. Remove the hopper and empty out the debris that has been collected.

5. Inspect and clean the brushes. Ensure that there is no string or wire wrapped around the brushes and that the bristles are intact.

6. Replace the hopper.

WEEKLY CHECKLIST

1. Clean the engine air intake filter.

2. Inspect the dust skirts for wear or damage.

3. Check the condition of the main and side brushes. If necessary, adjust or replace them.

4. Check that the gaskets which seal the hopper are intact and in good condition.

5. Verify the integrity of the filter.

If any of these parts are worn or damaged, replace them or contact technical assistance.
